Political Situation.

Myshington and New York record the highest temperatures. There is no outlook for cooler atmosphere. On the contrary, indications point to continued heat, with frequent thunder squalls. When they break, something or somebody will be hurt. One storm has already been averted. The withdrawal of the nomination of Thomas D. Jones, of Illinois, as a member of the Federal Reserve Board, has saved the President, and, in very large measure, the Democratic party. The President may feel annoyed just now, but the time will come when he will have occation to thank those Senators whose political wisdom led them to oppose the President's wishes.

The Republican Senators, although they would have been compelled to go upon record in opposition to Mr. Jones, would have been glad to have seen him the president may feel annoyed to the new York as there are appointment of Mr. Jones, would have been glad to have seen him the president might be impressed with "the need for a vast improvement in the personnel of the New York Congressmen would go to the Wints Approval of the South. And think it humorous, lies with Senators Hollis, Pom- keep out of the mess he will be lucky. erene. Blair Lee, and their colleagues, who so nobly defended Jones in order to make themselves solid Carranza has been campaigning in a special train with the President. Senator Lee could not have done otherwise. The administration helped him in his Senatorial fight and he had to stand by it. None of the Senators who went upon record in Jones' behalf come before the people in the approaching elections, and they naturally hope that two years hence the nomination will have ceased to be a political issue. Meanwhile, the Senators who opposed Jones are on the White House blacklist. Senators Reed and Hitchcock have already been denounced in the President's letter to Mr. Jones. They need not expect any favors. More than this, they are pilloried as warnings to It is generally believed that Huerta would have those who would run counter to the wishes of the administration. The fact is, however, that the withdrawal of the nomination is the first blow to the President's prestige, and as it also gives aid and com-

the effect of the episode may be. One feature of the situation augurs well for the future. It is still questionable whether the country the control of many billions of dollars in the hands of a few men appointed by the President and who, The average man would give up a good deal of as experience has already shown, is guided in his appointing all Democrats the President has set a precedent in favor of a partisan board which will The New York man who found a rat in a loaf of unquestionably be followed by his successors. only to be passed through a small chan-nel, left open for the blockade runners.

Land of the "pace that kills," land of the "movie"

th' Year.

(Written expressly for The Herald.) By JOHN KENDRICK BANGS.

TO TIME-KILLERS. (Copyright, 1914.)

This "killing time" it seems to me Is just a crime, because you see There s not enough of time by far. No matter who or what we are, For any one To do the things that must be done.
